

Keyboard Shortcuts for PC

The following keyboard shortcuts will help you move in 3D space within Solid Edge using a three-button mouse. Print these out for reference while you work, and watch the videos for a demo.

Note: Since we're using a PC version of the software, you can follow the PC commands even if you're on a Mac.

Function	Shortcut
Zoom into point	ctrl + right click + drag
Zoom into cursor location	scroll mouse wheel
Rotate view	shift + right click + drag
Pan view	ctrl + shift + right click + drag
Lock or unlock to plane	function + 3
Save file	ctrl + s
Delete	function + delete
